## THE LIQUOR ORDINANCE.

In another part of this issue of the GAZETTE will be found the full text of the new ordinance governing and regulating the saloon business in the City of Heppner. We urge it upon every citizen of the town to read this ordinance carefully, and acquaint themselves thoroughly with all of its provisions. To our mind it is quite stringent at some points, and there is no doubt but that its strict enforcement will act as a regulator to the saloon business and curtail much of the evil that flows from unrestrained liquor selling.

The ordinance is modeled after that proposed by the Greater Oregon Home Rule Association, which said association has undertaken the gigantic task of purifying the saloon business of Oregon, and have made some mighty promises, and so far as we are concerned, we desire to put the case up to them. Yet it is the duty of every good citizen to assist in bringing about the very best results, and to assist in getting the best out of the situation as it now stands. We feel sure no right thinking person will stand in the way of the proper enforcement of the new order, and furthermore, they should insist upon the letter of the law being carried out and its provisions lived up to.

Read this ordinance and be posted.

## KEEP AT IT.

If you toot your little tooter and then lay aside your horn, there's not a man in ten short days will know that you were born.

The man who gathers pumpkins is the man who plows all day, and the agent who keeps a humping is the man who makes it pay. The man who advertises with a sudden jerk is the man who blames the printer because it wouldn't work. The man who gets the business has a long and steady pull, and he keeps the local papers for years and years quite full. He plans his advertisements in a thoughtful, honest way, and keeps forever at it until he makes it pay. He has faith in all the future, can withstand a sudden shock, and like the man in Scripture, has his business on a rock.

The hen that lays the golden egg is early off the roost; and if you would make the money, you should never kick but boost.

Never fear. There's no danger of exceeding the speed limit of public pride. Make this year the best ever in Morrow County.

Morrow County has a dozen townships of mountain timber that will some day yield immense incomes to lumbermen and fuel dealers.

With 44,000,000 pounds of butter in cold storage and other things in proportion, it is little wonder that the price of living is getting higher all the time.

Thermometer 2 degrees above zero at Pendleton, 8 below at Walla Walla, and 9 above at Heppner, was the record last week. Of course there is nothing strange about this—it is always thus.

Morrow County has room for workers, but none for drones and kickers. It can support three or four times its present population. If you live in the Middle West, sell out your cyclone cellar and come here.

One of the best ways to make Heppner grow is to spend your money at home. Patronize your own merchants, mechanics, etc. These men help to build up the material interests of the county. Their homes are here, they are part and parcel of the moral and social fibre of the town and their taxes support its institutions. Stand by those

who stand by you. Don't kick but boost.

The world is growing better, for a fact. Fewer resolutions and more results—that is the spirit that makes good. A little bit of self-denial, a good supply of cheerfulness and a full head of steam fits in nicely with any day of any old year.

The winter so far has been very pleasant and favorable for all classes of stock. The hay supply has not been drawn upon very heavily yet and the winter is practically half gone. Sheep and cattle are reported in fine condition in all localities.—Harney County News.

The site selected for the new branch asylum at Pendleton by Acting-Governor Bowerman and others of the commission acting with him, is not approved by Governor West and Treasurer Kay, the new board, as they claim it is entirely unsuitable. The Governor has called the attention of the Legislature to the matter in a special message and it would seem from the facts set forth his grounds are well taken. It is urged that the legislature reject the selection entirely, and that the new commissioners be instructed to make another selection. It is not intended, however, to take the institution from Umatilla County, or from the vicinity of Pendleton, but simply to purchase a more suitable location, which it is claimed can be done.

## A Reliable Cough Medicine

Is a valuable family friend. Foley's Honey and Tar fills this condition exactly. Mrs. Charles Kline, N. 8th St., Easton Pa. states: "Several members of my family have been cured of bad coughs and colds by the use of Foley's Honey and Tar and I am never without a bottle in the house. It soothes and relieves the irritation in the throat and loosens up the cold. I have always found it a reliable cough cure." Sold by all druggists.

## School Notes.

By S. E. NOTSON, Co. Supt.

On the 10th inst., I visited the school in District No. 6. Prof. J. A. Gibbons is in charge of this school. There are 21 pupils enrolled. Since my former visit, the schoolhouse has been moved to a site near the Nunamaker bridge on Rhea creek. An addition has been built to the building, which adds about ten feet to the schoolroom and provides a cloak room in front. The building has been recently papered; new window boards, new window shades, some new blackboard, and a new flag have been provided. It would not be an easy matter to find a schoolroom more tastefully decorated. Patrons, pupils and teacher are all quite proud of the schoolroom. The work of the school is moving along in good shape. In the evening a local educational meeting was held at the schoolhouse. A fair crowd was in attendance, and the interest was excellent.

The next day, I visited the school at Eight Mile Center. Miss Bertha Huston and eight pupils were busy at work. Several pupils had been absent from school on account of sickness, but they were getting their work well in hand again. This school has an excellent bookcase for the library books.

In the afternoon, I visited the school at Hale Ridge. Miss Myrtle Scrivner is the teacher here. Eight pupils were present. Window boards and a thermometer have been provided since my former visit. This school has a good flag, but no flag-pole. The pupils seem to be interested in their work and are getting along nicely.

In the evening, I returned to Eight Mile Center to attend a local educational meeting. Although only a few hours' notice had been given, a goodly number of people were present. The teacher and pupils, assisted by some of the patrons, rendered a short program, and the writer delivered a short address upon the "Country Life" movement.

For either acute or chronic kidney disorders, for annoying and painful urinary irregularities take Foley Kidney Pills. An honest and effective medicine for kidney and bladder disorders. Sold by all druggists.

## WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, droopiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs. M. E. Barton, of Heppner, Oregon, says: "I do not know of a better kidney medicine than Doan's Kidney Pills. We have used this remedy in our family for the past two years and it has proved so effective in relieving kidney complaint that I consider it my duty to give this public statement."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

### "TWIN" PEDESTAL EXTENSION TABLES

These tables derive their name from the fact that they have two oval or oblong pedestals, each complete in itself, thereby gaining a decided improvement over the ordinary one pedestal cut in halves, so as to divide.

When entertaining friends at luncheon and you have spared neither pains nor expense preparing, will you serve the "spread" on a "divided" one pedestal table showing locks, bolts, nuts, etc., unfinished surfaces exposed, or will you have a "Twin" that is perfect whether closed or extended? It's up to you, and surely, as a table lasts a lifetime, you will procure a "Twin," the table you will be proud of.

We carry several patterns in stock but "Twins" are made in numerous designs and finishes, any of which we can obtain on short notice. CALL AND SEE THEM.
